

District Offered Programs

BUS TRANSPORTATION

Students who reside within the district boundaries and live within a school’s transportation zone may be bused to school. Students attending Estrella Foothills and Vista del Sur may utilize bus transportation from any of the Laveen schools. www.laveenschools.org/transportation

CHILD NUTRITION

Proper nutrition is important for growing bodies and growing minds. As part of the National School Lunch program, students are guaranteed a healthful breakfast and lunch that are rich in whole grains, fruits, and vegetables. Breakfast is provided at no charge before school to all students. Lunch is \$2.60. Families may qualify for

free or reduced-price lunch.

PRESCHOOL

Preschool is available for students age three to five years old at select sites. Certified teachers teach the academics-based program to prepare children for kindergarten. Preschool programs are designed to provide developmentally appropriate social, educational, and physical experiences that enhance the child as a whole. Preschool is tuition-based.

FULL DAY KINDERGARTEN

Students who are five years old by August 31 of each year may enroll in Full Day Kindergarten. Children who reach age five by December 31 may be tested and accepted based on level of readiness. There is no fee to attend. www.laveenschools.org/kindergarten

BEFORE/ AFTER SCHOOL PROGRAMS

Kids Club offers carefully planned, well-supervised activities for children in Grades K-6. Activities are designed to not only interest your child, but also foster his/her emotional well-being and social, physical, and critical thinking skills. Activities include games, sports, hands-on science, arts and crafts, and music. Time is set aside for homework assistance and snacks are provided. Kids Club is licensed by the Arizona Department of Health Services. Camps during school breaks are also available.

GIFTED EDUCATION

Laveen’s gifted education program provides services for students with superior intellect or advanced learning ability who require differentiated educational programs and/or services beyond those normally provided by the regular school program to achieve at levels commensurate with the child’s intellect and ability. Because not all gifted students are alike, program modifications for gifted students are sufficiently varied and flexible so as to provide challenging learning experiences and appropriate resources. www.laveenschools.org/gifted-education

SPECIAL EDUCATION

Special education is available for students found to be eligible for and in need of special education services. The school provides Special Education according to an individualized education program (IEP) which provides a free and appropriate public education. Screening for preschool aged children is available on scheduled dates throughout the year. www.laveenschools.org/student-services

About our Program

Laveen Elementary School is a “mindful school,” named an A+ School of Excellence, an Exemplary Title 1 School, and awarded the 2018 Arizona School Board’s Golden Bell Award for the most promising school program of the year.

Mindfulness is about developing mental and emotional strength in children. As our students become more mindful, they develop the knowledge and attitudes needed to thrive in a world of increasing complexity, uncertainty, and exponential change. Laveen Elementary School strives to educate and empower all of its students to do their personal best by making responsible choices that positively affect their mind, body and spirit.

Components of the Laveen mindfulness program include: weekly yoga sessions before school for students and families, teachers trained in mindful breathing techniques, a mindful “reset room” for students, and school counselors trained by mindfulschools.org. In addition, “Second Step,” a social-emotional learning program equipped to help children thrive, is offered at all grade levels each week.

At Laveen Elementary School we inspire growth and maturity from the “inside out” by cultivating awareness, resilience and compassionate action.

STUDENT INVOLVEMENT

In addition to the academic experience Laveen students receive, there are also several opportunities to participate in extracurricular activities. Student Council, Piano Club, Art Club, and intramural sports are among the activities in which our students can participate.

TECHNOLOGY

Thanks to the support of Laveen’s community, the district has a 1:1 student-to-computer ratio providing each student with a device that they can use daily. The devices complement the district’s core curriculum which all have digital platforms, allowing students access to instructional materials and resources online. Arizona’s academic standards require students to use technology to research, collaborate, and demonstrate their learning. All students have user accounts which can be accessed from both school and at home to share documents and projects with other students and the teacher.

“As our students become mindful leaders, they will develop the knowledge and attitudes needed to thrive in a world of increasing complexity, uncertainty, and exponential change.”

-Dr. Robert Caplinger, Principal

REGISTRATION

Families may enroll in Laveen School regardless of where they reside, space permitting.

Families may enroll their children using our secure online portal or by downloading and completing a paper registration packet available at www.LaveenSchools.org/registration or in the school’s front office.

Core Curriculum

MATH

Arizona’s Mathematics Standards require students to demonstrate a deep understanding of math and develop strong critical thinking skills. Laveen’s adopted mathematics curriculum includes McGraw-Hill’s My Math for Grades K-5 and Glencoe Mathematics for Grades 6-8. These programs are aligned to Arizona’s standards and are available in both traditional and digital formats. Advanced coursework including high school level algebra is offered at all schools.

ENGLISH LANGUAGE ARTS

Arizona’s English Language Arts standards call for an integrated approach to teaching reading, writing, language, speaking and listening. Laveen strives to promote literacy across all of the content areas, exposing students to a rich balance of fiction and nonfiction texts. Students read selections from a wide range of text types and integrate research, writing and media skills through technology. Laveen’s ELA curriculum includes Savvas ReadyGen for Grades K-5 and McGraw-Hill’s StudySync for Grades 6-8. Both programs feature traditional and digital learning platforms.

SCIENCE

Discovery Education Science connects students to their inner curiosity by placing them at the center of each three-dimensional learning experience. The curriculum engages students in authentic investigations to uncover the mysteries of the universe. Hands-on and virtual investigations, STEM activities, and a variety of science resources are provided to support all levels of learners. Science Techbook and Middle School Science meets both Arizona’s science standards as well as the Next Generation Science Standards. These programs feature traditional and digital learning platforms.

SOCIAL STUDIES

The Arizona History and Social Science standards build across grade levels in a progression of knowing and applying concepts aligned to history, government, geography, and economics. To support this progression, Teacher’s Curriculum Institute (TCI) social studies is provided in 6th-8th grades and integrates proven teaching strategies, engaging content, and meaningful technology. Students in Grades 1-4 use McGraw-Hill’s Impact Social Studies and 5th graders use McGraw-Hill’s Discovering our Past: United Studies, Arizona Edition. These programs provide rigorous learning experiences to help them understand the world around them. These programs feature traditional and digital learning platforms.
